

How to activate “Hit highlighting” to navigate terms found in PDF documents

- **Example: Hit highlighting searching for the term “family”**

- **Please notice that**

1. **Adobe Reader X / 10 (resp. Acrobat X Pro X / 10) does not support hit highlighting**
2. Adobe Reader 9 (resp. Acrobat Pro) disables hit highlighting by default.
3. Hit highlighting requires opening the retrieved documents within your browser.

1. Active Hit highlighting in Adobe Acrobat resp. Adobe Acrobat Pro (Vers. 9.x.y)

- Open Adobe Reader
- Click Edit (Bearbeiten) > Preferences (Voreinstellungen)
- Look left-hand for entry Search (Suche) and Check the right-hand box labelled
- “Enable search highlights from external highlight server”
(Suche nach Markierungen von externem Markierungsserver aktivieren)

2. Open PDF documents with Adobe Acrobat in the browser: example Firefox

- Open Firefox
- Click Extras > Preferences (Voreinstellungen) > Click Application (Anwendungen)
- Click Adobe Acrobat Document (application/pdf) > Select “Adobe Acrobat (in Firefox)”
